The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment.

Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for lists of testimonials.

AFFECTS EVERY ORGAN.

Does That Most Dreadful of Diseases—Chronic Catarrh.

Over half of the people have catarrh in some form or other, and yet probably not a tenth of these people know that their disease is catarrh. One person says he has Bright's disease; another liver complaint; another consumption; another female complaint. These people would be very much surprised to hear that they were all suffering with chronic catarrh; but it is so, nevertheless. Each one of these troubles, and a great many more, are simply catarrh; that is, chronic inflammation of the mucous lining of whichever organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate; it cures.

Dr. Hartman has recently compiled into book form several of his lectures on chronic catarrh, which he has delivered at different times at the Surgical Hall. This book is called "Winter Catarrh," and will be sent free of charge on application to The Peruna Drug Manufacturing Company, Columbus, Ohio.

General Debility and Loss of Flesh

Scott's Emulsion has been the standard remedy for nearly a quarter of a century. Physicians readily admit that they obtain results from it that they cannot get from any other flesh-forming food. There are many other preparations on the market that pretend to do what

SCOTT'S EMULSION does, but they fail to perform it. The pure Norwegian Cod-liver Oil made into a delightful cream, skillfully blended with the Hypophosphites of Lime and Soda, which are such valuable tonics, makes this preparation an ideal one and checks the wasting tendency, and the patient almost immediately commences to put on flesh and gain a strength which surprises them.

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper. SCOTT & BOWNE, Chemists, New York.
